

# Humanities Week

- This event has passed.

In Week 8, we're celebrating all of the humanities subjects – Geography, History, Legal and Business – by running fun activities at lunchtime!

Throughout the whole week, students will be able to tell the story of their family background on Staughton's world map, as well as compete in classroom trivia and writing activities.

Every day, there will be something fun to do at lunchtime too. Monday starts with teams going head-to-head with a school treasure map hunt, followed by Tuesday's shield-making workshop and a deadly game of the plague. On Wednesday, students will host a historical debate in the library and test their skills in The Wiki Game. Thursday lays down the law with a mock court and whodunit game, and Friday finishes off a day of business with the Staughton Market.

There's something for everyone and there's lots of prizes up for grabs.

Get excited for Humanities Week!
